

THE FREIGHT YARD AT HOBOKEN

Drawn from memory by J., the night of November 22, 1910

① Hiding places: 1 under the tarp wagon, 2 the empty boxcar, 3 the shed's dark door

≡ Ladders up the boxcars

⚠ Lookouts up high, turning their lanterns

☀ Lamps: they'll see you a long way off in the light

□ Walks and plank crossings

→ The ways the seven come: by cab, out of the station, across the yard

◆ The rear door, where the seven go in

◇ The dark front steps: your way aboard

Five watchmen walk the yard where they please. Mind the beams.
